

ROUGH SLEEPER TEAM

Shropshire and Staffordshire

Brighter Futures is delivering a *new* Rough Sleeper's Team covering the whole of Staffordshire (excluding Stoke and Newcastle) and Shropshire. The pilot will initially run for the next six months and is funded by Shropshire Council.

The service aims to support people sleeping rough to find accommodation and to use other services which could help them.

If you know someone is sleeping rough give them this number

0800 015 1464

FREE from landlines and most mobile providers

We need to know:

- where they are (or where they intend to be bedded down)
 - Their name
- Their contact number if they have one

You could also give them one of our cards so they can call themselves

We will make contact with them during our working hours which are:

6am - 2pm Monday - Friday

(an answerphone service operates out of these hours)

We offer a warm drink and can support rough sleepers to complete paperwork and to make contact with housing and other services.

Please note we do not supply food or accommodation - the aim is to empower people to make a sustainable change
